Meeting Minutes

Menu

We had 2 meetings during the 7th week. The first meeting was a face-to-face meetup to try and get data getting pulled from the API and overall status update on the project. Tony did not attend the meeting. The second meeting was via Facebook chat. We found out that Tony has quit the project entirely.

Carousel feature

Menu

We added a carousel feature to the front page of the website which displays some visuals. A screenshot is shown in the next slide.

Carousel feature

Menu

Leaderboard

Menu

We have implemented a functioning leaderboard that displays the username of the player and the amount of money they have.

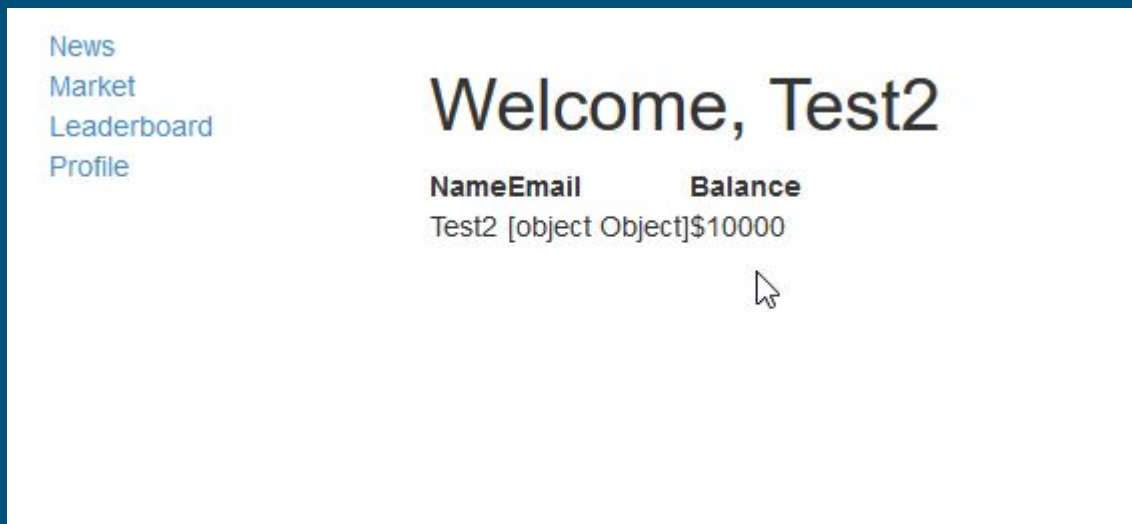

Current Leaderboard

1. Player: Admin | Assets:
2. Player: Tester1 | Assets: 100000
3. Player: Test2 | Assets: 10000
4. Player: Poonetta | Assets: 5000
5. Player: Test3 | Assets: 2000
6. Player: New | Assets: 100000

Profile page

Menu

When signed in, the user is able to view their name, email and amount of money they currently have. Other profile details will be listed on this page.

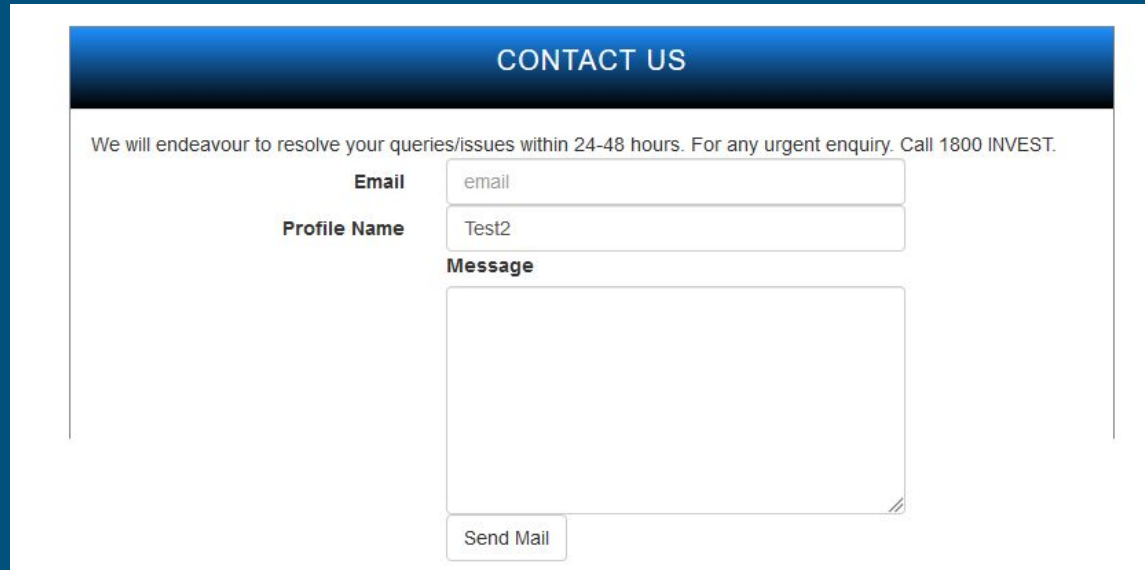

The screenshot shows a web application interface. On the left is a vertical sidebar with four links: 'News', 'Market', 'Leaderboard', and 'Profile'. The 'Profile' link is highlighted with a light blue background. The main content area has a large heading 'Welcome, Test2'. Below this is a table with three columns: 'Name', 'Email', and 'Balance'. The table contains one row of data for 'Test2'. A mouse cursor is visible over the 'Balance' cell.

Name	Email	Balance
Test2	[object Object]	\$10000

Contact Page

Menu

We also have added a Contact page where users are able to submit an enquiry if they have any issues/questions.

CONTACT US

We will endeavour to resolve your queries/issues within 24-48 hours. For any urgent enquiry. Call 1800 INVEST.

Share Market Page

Menu

We are currently working on the Share Market Page that will display information on various stocks. We are able to pull data from the Yahoo Finance API but we are still figuring out how to display the data to the page.

[News](#)

[Leaderboard](#)
[Profile](#)

Share Market Page

To get started, add a stock by typing its symbol (e.g. aapl, goog etc) in the search box above

Github Repository

Menu

We will be using Github as our repository to share our documentation and files for the project publicly to you, allowing you to see our progress.

Trello Board

Menu

We will be using Trello as a way to keep track of the current progress of the project.

Additional Notes

[Menu](#)

During this week we mainly focused on the API integration, database for our login accounts and leaderboard implementation. Some minor CSS touches were also added. Unfortunately one of our group members, Tony, has left the project this week. We will have to focus really hard on producing the final product as a 3-man group.
